

# JavaScript के हों ?

By-Saurav Subedi

```
function() {
    return (
        <React.Fragment>
            <div className="py-5">
                <div className="container">
                    <Title name="our" title="Our Products" />
                    <div className="row">
                        <ProductConsumer>
                            {(value) => {
                                console.log(value);
                            }}
                        </ProductConsumer>
                    </div>
                </div>
            </div>
        <React.Fragment>
    )
}
```

# Introduction

Ld cloud is a Nepal based data center. A data center is a facility that centralizes an organization's shared IT operations and equipment for the purposes of storing, processing, and disseminating data and applications. Because they house an organization's most critical and proprietary assets, data centers are vital to the continuity of daily operations. Our line of products is cloud computing, web hosting, backup as a service, firewall as a service, private cloud deployment and dedicated servers. Data centers are an integral part of the enterprise, designed to support business applications.

# LD Cloud Academy

LD Cloud Academy is a part of LD cloud where we provide students with one of the most skillful courses that are required in this modern day tech world !

# Our Motto

Our focus and commitment is to provide high quality products with extraordinary service to our customers. Our focus is on creating values for our business partners, providing a safe and healthy work environment for our employees and complying with all regulatory requirements. Ultimately, we strive to become leaders in delivering and transforming ideas that help to build the businesses of our customers as well as to meet their expectations.

# Our Founder

I'm Vedant Agrawal ,A entrepreneur and A Web Developer!! Born in Kathmandu, Nepal. My goal is to develop cloud computing platform in Nepal and make easy access to it available to my country. I have been working as a professional Web Developer for over 2-Years and have experience working with multiple international companies.

# Saurav Subedi

Saurav has been programming and teaching for more than 6 years. He has a handful of experience in Web Development technologies like HTML5 to front-end frameworks such as React along with server-side technologies including PHP and Python. He is better known for his exceptional guidance and presenting complex topics in simpler terms.

Thank you

```
function() {
  return (
    <React.Fragment>
      <div className="py-5">
        <div className="container">
          <Title name="our" title="Our Products" />
          <div className="row">
            <ProductConsumer>
              <ProductConsumer>
                <div>
                  <h2>Our Products</h2>
                  <p>We have lots of products!</p>
                  <ul>
                    <li>Product 1</li>
                    <li>Product 2</li>
                    <li>Product 3</li>
                  </ul>
                </div>
              </ProductConsumer>
            </div>
          </div>
        </div>
      </React.Fragment>
    )
}
```
